

LIGHTNING

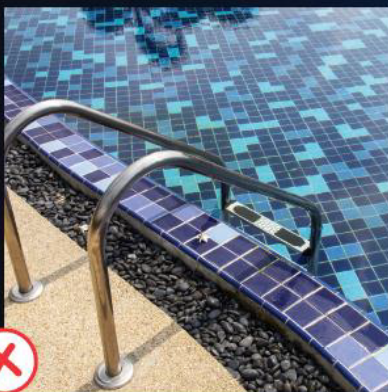

⚡ Did You Know?

Lightning occurs during thunderstorms.

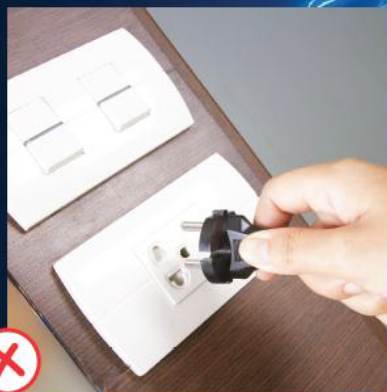

Singapore has one of the highest rates of lightning activity in the world with an average of 167 thunderstorm days a year.

Lightning can occur in the absence of rain as it can strike some distance away from a thunderstorm.

⚡ How Can I Protect Myself ?

Do not stay in or near water bodies like the sea or swimming pool

Minimise use of electrical appliances

Wait at least 30mins after thunder is last heard before resuming outdoor activities

Avoid holding metal objects such as golf clubs

Do not seek shelter under tall trees or small structures like a tent

Seek shelter in a building or car
